ENGLISH C1 · ADVANCED GRAMMAR

Notional agreement

Choose agreement according to grammatical form, collective meaning, proximity and quantity interpretation in complex subjects. The lesson connects form, meaning, register and real editorial decisions rather than treating the pattern as an isolated rule.

THE CENTRAL IDEA

Use notional agreement to match the verb and pronoun to whether the subject is viewed as one unit, several members or one quantity while preserving the intended meaning and register.

Choose agreement according to grammatical form, collective meaning, proximity and quantity interpretation in complex subjects.

MODEL

The committee has reached its decision, but the members remain divided.

grammatical head + notional number + variety convention

6 GUIDED STAGES · 30 LEARNING DECISIONS

This complete guide combines explanation, visual reasoning, practice and feedback. Separate exercise and answer-key editions are also available from the lesson page.

LEARNING OUTCOMES

Outcome 1 Recognise the main notional agreement patterns in authentic contexts.	Outcome 2 Choose a form that accurately expresses match the verb and pronoun to whether the subject is viewed as one unit, several members or one quantity.
Outcome 3 Avoid errors that change time, agency, emphasis or speaker commitment.	Outcome 4 Use the structure appropriately in formal writing, reporting and edited general english.

Build meaning before form

Choose agreement according to grammatical form, collective meaning, proximity and quantity interpretation in complex subjects.

What notional agreement communicates

Choose agreement according to grammatical form, collective meaning, proximity and quantity interpretation in complex subjects.

The central purpose is to match the verb and pronoun to whether the subject is viewed as one unit, several members or one quantity. A successful choice therefore preserves the proposition while making the intended relationship, viewpoint or degree of commitment visible to the reader.

The committee has reached its decision.	a group presented as one institutional unit
The committee are divided in their opinions.	individual members presented as separate actors in varieties allowing plural agreement
Ten kilometres is too far to walk in this heat.	a plural-form measure interpreted as one amount

How the pattern is built

Use this working formula: grammatical head + notional number + variety convention. The formula is a decision path: it identifies the trigger, the clause architecture and the element that carries tense or modality.

The model “The committee has reached its decision, but the members remain divided.” shows the complete pattern in context. Rebuild the sentence from meaning to form instead of translating each word independently.

Choice	Structure	Example
Collective unit	collective noun + singular verb/pronoun	The committee has reached its decision.
Collective members	collective noun + plural verb/pronoun	The committee are divided in their opinions.
Quantity as unit	measure/amount + singular verb	Ten kilometres is too far to walk in this heat.

Choose by meaning, not by surface similarity

Neighbouring structures may contain similar words but perform different jobs. Compare the three reference patterns and name the intended effect before completing the sentence.

A reliable answer explains both why the chosen form works and why a plausible alternative would change the meaning, time relation, information focus or level of certainty.

Meaning	Best route
a group presented as one institutional unit	Collective unit
individual members presented as separate actors in varieties allowing plural agreement	Collective members
a plural-form measure interpreted as one amount	Quantity as unit

Register, discourse and editorial control

This grammar is especially useful in formal writing, reporting and edited general english. Its value comes from helping the reader process a relationship efficiently, not from making the sentence sound artificially complex.

After editing, check recoverability, natural word order and consistency with the surrounding paragraph. If the marked structure creates ambiguity, return to a fuller or more neutral clause.

Reason through the pattern

The visual map moves from communicative purpose to structural trigger, then to the final clause. It keeps meaning and form visible at the same time so the learner can justify every choice.

DECIDE IN THIS ORDER

STEP 1

Decision 1

Identify the communicative purpose before selecting a form: match the verb and pronoun to whether the subject is viewed as one unit, several members or one quantity.

STEP 2

Decision 2

Locate the structural trigger and match it to one of the reference patterns.

STEP 3

Decision 3

Check time reference, clause relationships, agency and speaker commitment.

STEP 4

Decision 4

Read the complete sentence in context and confirm that its register suits formal writing, reporting and edited general english.

STEP 5

Decision 5

Compare the result with a neutral alternative and keep the marked form only when it adds useful meaning.

Compare forms and meanings

Use the table to justify each structural choice.

Pattern	Form	Model
Collective unit	collective noun + singular verb/pronoun	The committee has reached its decision.
Collective members	collective noun + plural verb/pronoun	The committee are divided in their opinions.
Quantity as unit	measure/amount + singular verb	Ten kilometres is too far to walk in this heat.

EXAMPLES AT A GLANCE

The committee has reached its decision.	a group presented as one institutional unit
The committee are divided in their opinions.	individual members presented as separate actors in varieties allowing plural agreement
Ten kilometres is too far to walk in this heat.	a plural-form measure interpreted as one amount

COMMON ERRORS

EDIT THIS

Avoid this pattern

Do not switch between singular and plural reference without a meaning change.

EDIT THIS

Avoid this pattern

Check the target variety because collective agreement differs across Englishes.

EDIT THIS

Avoid this pattern

Do not choose agreement solely from the nearest plural noun.
