ENGLISH C2 · ADVANCED GRAMMAR

Advanced subordination

Build layered temporal, causal, conditional and concessive relations while making hierarchy and scope explicit. The lesson connects form, meaning, register and real editorial decisions rather than treating the pattern as an isolated rule.

THE CENTRAL IDEA

Use advanced subordination to show which proposition frames, limits, causes or concedes another across multi-clause sentences while preserving the intended meaning and register.

Build layered temporal, causal, conditional and concessive relations while making hierarchy and scope explicit.

MODEL

Although the measure worked initially, it was withdrawn because costs rose once demand recovered.

matrix clause + hierarchically attached subordinate clauses

6 GUIDED STAGES · 30 LEARNING DECISIONS

This complete guide combines explanation, visual reasoning, practice and feedback. Separate exercise and answer-key editions are also available from the lesson page.

LEARNING OUTCOMES

Outcome 1 Recognise the main advanced subordination patterns in authentic contexts.	Outcome 2 Choose a form that accurately expresses show which proposition frames, limits, causes or concedes another across multi-clause sentences.
Outcome 3 Avoid errors that change time, agency, emphasis or speaker commitment.	Outcome 4 Use the structure appropriately in complex argument, policy, law and analytical narrative.

Build meaning before form

Build layered temporal, causal, conditional and concessive relations while making hierarchy and scope explicit.

What advanced subordination communicates

Build layered temporal, causal, conditional and concessive relations while making hierarchy and scope explicit.

The central purpose is to show which proposition frames, limits, causes or concedes another across multi-clause sentences. A successful choice therefore preserves the proposition while making the intended relationship, viewpoint or degree of commitment visible to the reader.

Although the measure worked initially, it was withdrawn because costs rose.	a conceded fact separated from the cause of the main outcome
The reserve will activate once demand exceeds capacity for two consecutive days.	a trigger defined by a subordinate threshold condition
The data were aggregated so that trends could be compared without exposing individuals.	a goal and a limiting safeguard integrated hierarchically

How the pattern is built

Use this working formula: matrix clause + hierarchically attached subordinate clauses. The formula is a decision path: it identifies the trigger, the clause architecture and the element that carries tense or modality.

The model “Although the measure worked initially, it was withdrawn because costs rose once demand recovered.” shows the complete pattern in context. Rebuild the sentence from meaning to form instead of translating each word independently.

Choice	Structure	Example
Layered concession and cause	although-clause + matrix + because-clause	Although the measure worked initially, it was withdrawn because costs rose.
Nested time condition	matrix + when/once + clause containing condition	The reserve will activate once demand exceeds capacity for two consecutive days.
Purpose with constraint	matrix + so that + clause + without + -ing	The data were aggregated so that trends could be compared without exposing individuals.

Choose by meaning, not by surface similarity

Neighbouring structures may contain similar words but perform different jobs. Compare the three reference patterns and name the intended effect before completing the sentence.

A reliable answer explains both why the chosen form works and why a plausible alternative would change the meaning, time relation, information focus or level of certainty.

Meaning	Best route
a conceded fact separated from the cause of the main outcome	Layered concession and cause
a trigger defined by a subordinate threshold condition	Nested time condition
a goal and a limiting safeguard integrated hierarchically	Purpose with constraint

Register, discourse and editorial control

This grammar is especially useful in complex argument, policy, law and analytical narrative. Its value comes from helping the reader process a relationship efficiently, not from making the sentence sound artificially complex.

After editing, check recoverability, natural word order and consistency with the surrounding paragraph. If the marked structure creates ambiguity, return to a fuller or more neutral clause.

Reason through the pattern

The visual map moves from communicative purpose to structural trigger, then to the final clause. It keeps meaning and form visible at the same time so the learner can justify every choice.

01	02
matrix clause	hierarchically attached subordinate clauses

DECIDE IN THIS ORDER

STEP 1

Decision 1

Identify the communicative purpose before selecting a form: show which proposition frames, limits, causes or concedes another across multi-clause sentences.

STEP 2

Decision 2

Locate the structural trigger and match it to one of the reference patterns.

STEP 3

Decision 3

Check time reference, clause relationships, agency and speaker commitment.

STEP 4

Decision 4

Read the complete sentence in context and confirm that its register suits complex argument, policy, law and analytical narrative.

STEP 5

Decision 5

Compare the result with a neutral alternative and keep the marked form only when it adds useful meaning.

Compare forms and meanings

Use the table to justify each structural choice.

Pattern	Form	Model
Layered concession and cause	although-clause + matrix + because-clause	Although the measure worked initially, it was withdrawn because costs rose.
Nested time condition	matrix + when/once + clause containing condition	The reserve will activate once demand exceeds capacity for two consecutive days.
Purpose with constraint	matrix + so that + clause + without + -ing	The data were aggregated so that trends could be compared without exposing individuals.

EXAMPLES AT A GLANCE

Although the measure worked initially, it was withdrawn because costs rose.	a conceded fact separated from the cause of the main outcome
The reserve will activate once demand exceeds capacity for two consecutive days.	a trigger defined by a subordinate threshold condition
The data were aggregated so that trends could be compared without exposing individuals.	a goal and a limiting safeguard integrated hierarchically

COMMON ERRORS

EDIT THIS

Avoid this pattern

Do not leave the reader unsure which clause a because-clause explains.

EDIT THIS

Avoid this pattern

Do not use a future tense inside an ordinary future time clause.

EDIT THIS

Avoid this pattern

Keep the understood subject of the without-clause clear.

Recognition in context

Choose the sentence whose grammar matches the stated communicative purpose.

A1 · MEANING DECISION 1

Which sentence best communicates this purpose: a conceded fact separated from the cause of the main outcome?

OPTIONS Although the measure worked initially, it was withdrawn because costs rose. · The reserve will activate once demand exceeds capacity for two consecutive days. · The data were aggregated so that trends could be compared without exposing individuals.

A2 · MEANING DECISION 2

Which sentence best communicates this purpose: a trigger defined by a subordinate threshold condition?

OPTIONS The reserve will activate once demand exceeds capacity for two consecutive days. · The data were aggregated so that trends could be compared without exposing individuals. · Although the measure worked initially, it was withdrawn because costs rose.

A3 · MEANING DECISION 3

Which sentence best communicates this purpose: a goal and a limiting safeguard integrated hierarchically?

OPTIONS The data were aggregated so that trends could be compared without exposing individuals. · Although the measure worked initially, it was withdrawn because costs rose. · The reserve will activate once demand exceeds capacity for two consecutive days.

A4 · INTERPRETATION 4

What does “Although the measure worked initially, it was withdrawn because costs rose.” communicate in this context?

OPTIONS a conceded fact separated from the cause of the main outcome · a trigger defined by a subordinate threshold condition · a goal and a limiting safeguard integrated hierarchically

A5 · INTERPRETATION 5

What does “The reserve will activate once demand exceeds capacity for two consecutive days.” communicate in this context?

OPTIONS a trigger defined by a subordinate threshold condition · a goal and a limiting safeguard integrated hierarchically · a conceded fact separated from the cause of the main outcome

A6 · INTERPRETATION 6

What does “The data were aggregated so that trends could be compared without exposing individuals.” communicate in this context?

OPTIONS a goal and a limiting safeguard integrated hierarchically · a conceded fact separated from the cause of the main outcome · a trigger defined by a subordinate threshold condition

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Form and function

Identify both the structural family and the meaning carried by each model.

B1 · FORM AND FUNCTION 1

“Although the measure worked initially, it was withdrawn because costs rose.” uses _____ to express _____.

OPTIONS Gap 1: Layered concession and cause / Nested time condition / Purpose with constraint · Gap 2: a conceded fact separated from the cause of the main outcome / a trigger defined by a subordinate threshold condition / a goal and a limiting safeguard integrated hierarchically

B2 · FORM AND FUNCTION 2

“The reserve will activate once demand exceeds capacity for two consecutive days.” uses _____ to express _____.

OPTIONS Gap 1: Nested time condition / Purpose with constraint / Layered concession and cause · Gap 2: a trigger defined by a subordinate threshold condition / a goal and a limiting safeguard integrated hierarchically / a conceded fact separated from the cause of the main outcome

B3 · FORM AND FUNCTION 3

“The data were aggregated so that trends could be compared without exposing individuals.” uses _____ to express _____.

OPTIONS Gap 1: Purpose with constraint / Layered concession and cause / Nested time condition · Gap 2: a goal and a limiting safeguard integrated hierarchically / a conceded fact separated from the cause of the main outcome / a trigger defined by a subordinate threshold condition

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Guided discourse choices

Maintain accurate form and meaning across a connected sequence of decisions.

C1 · EDITORIAL PLANNING

Choose the model that expresses a conceded fact separated from the cause of the main outcome: _____. Choose the model that expresses a trigger defined by a subordinate threshold condition: _____. Choose the model that expresses a goal and a limiting safeguard integrated hierarchically: _____. Choose the model built with although-clause + matrix + because-clause: _____. Choose the model built with matrix + when/once + clause containing condition: _____. Choose the model built with matrix + so that + clause + without + -ing: _____.

_____
_____

WORD BANK

Available forms

Although the measure worked initially, it was withdrawn because costs rose. · The data were aggregated so that trends could be compared without exposing individuals. · The reserve will activate once demand exceeds capacity for two consecutive days.

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Open reconstruction

Recover the missing structural trigger without a word bank.

D1 · INDEPENDENT RECONSTRUCTION

_____ initially, it was withdrawn because costs rose. The reserve will activate _____ for two consecutive days. The data were aggregated _____ without exposing individuals. State the full structural pattern for Layered concession and cause: _____. State the full structural pattern for Nested time condition: _____.

_____
_____
_____
_____

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Controlled transformation

Rewrite the neutral source so that it performs the requested advanced function.

E1 · TRANSFORMATION 1

Rewrite “The measure worked, but rising costs caused its withdrawal.” using the Layered concession and cause pattern to express a conceded fact separated from the cause of the main outcome.

_____
_____

E2 · TRANSFORMATION 2

Rewrite “Activation depends on sustained excess demand.” using the Nested time condition pattern to express a trigger defined by a subordinate threshold condition.

_____
_____

E3 · TRANSFORMATION 3

Rewrite “Aggregation enabled comparison and protected identities.” using the Purpose with constraint pattern to express a goal and a limiting safeguard integrated hierarchically.

_____
_____

E4 · TRANSFORMATION 4

Rewrite “The measure worked, but rising costs caused its withdrawal.” using the Layered concession and cause pattern to express a conceded fact separated from the cause of the main outcome.

_____
_____

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Communicative production

Use the grammar independently in realistic academic, professional and conversational contexts.

F1 · PRODUCTION TASK 1

Write two connected sentences about a realistic situation. Use Layered concession and cause to express a conceded fact separated from the cause of the main outcome, then add a neutral sentence that makes the contrast clear.

_____
_____
_____

F2 · PRODUCTION TASK 2

Write two connected sentences about a realistic situation. Use Nested time condition to express a trigger defined by a subordinate threshold condition, then add a neutral sentence that makes the contrast clear.

_____
_____
_____

F3 · PRODUCTION TASK 3

Write two connected sentences about a realistic situation. Use Purpose with constraint to express a goal and a limiting safeguard integrated hierarchically, then add a neutral sentence that makes the contrast clear.

Complete these prompts without reopening the guide.

R1 · REVIEW FOCUS

Explain and exemplify: communicative purpose.

_____
_____

R2 · REVIEW FOCUS

Explain and exemplify: structural trigger.

_____
_____

R3 · REVIEW FOCUS

Explain and exemplify: meaning contrast.

_____
_____

R4 · REVIEW FOCUS

Explain and exemplify: register choice.

_____
_____

R5 · REVIEW FOCUS

Apply this decision to a new example, then justify it: Identify the communicative purpose before selecting a form: show which proposition frames, limits, causes or concedes another across multi-clause sentences..

_____
_____

R6 · REVIEW FOCUS

Apply this decision to a new example, then justify it: Locate the structural trigger and match it to one of the reference patterns..

_____
_____

STAGE CHECK

Pause before continuing

Underline the trigger or decision point, name the rule, and check that the meaning has not changed.

Recognition in context

Compare the form first, then read the explanation and name the rule in your own words.

A1

Although the measure worked initially, it was withdrawn because costs rose.

Layered concession and cause is the best match because a conceded fact separated from the cause of the main outcome.

A2

The reserve will activate once demand exceeds capacity for two consecutive days.

Nested time condition is the best match because a trigger defined by a subordinate threshold condition.

A3

The data were aggregated so that trends could be compared without exposing individuals.

Purpose with constraint is the best match because a goal and a limiting safeguard integrated hierarchically.

A4

a conceded fact separated from the cause of the main outcome

The Layered concession and cause pattern communicates a conceded fact separated from the cause of the main outcome.

A5

a trigger defined by a subordinate threshold condition

The Nested time condition pattern communicates a trigger defined by a subordinate threshold condition.

A6

a goal and a limiting safeguard integrated hierarchically

The Purpose with constraint pattern communicates a goal and a limiting safeguard integrated hierarchically.

Form and function

Compare the form first, then read the explanation and name the rule in your own words.

B1

Layered concession and cause / a conceded fact separated from the cause of the main outcome

The structure belongs to the Layered concession and cause pattern. Its communicative purpose is a conceded fact separated from the cause of the main outcome.

B2

Nested time condition / a trigger defined by a subordinate threshold condition

The structure belongs to the Nested time condition pattern. Its communicative purpose is a trigger defined by a subordinate threshold condition.

B3

Purpose with constraint / a goal and a limiting safeguard integrated hierarchically

The structure belongs to the Purpose with constraint pattern. Its communicative purpose is a goal and a limiting safeguard integrated hierarchically.

Guided discourse choices

Compare the form first, then read the explanation and name the rule in your own words.

C1

Although the measure worked initially, it was withdrawn because costs rose.

Layered concession and cause: although-clause + matrix + because-clause.

C2

The reserve will activate once demand exceeds capacity for two consecutive days.

Nested time condition: matrix + when/once + clause containing condition.

C3

The data were aggregated so that trends could be compared without exposing individuals.

Purpose with constraint: matrix + so that + clause + without + -ing.

C4

Although the measure worked initially, it was withdrawn because costs rose.

Layered concession and cause: although-clause + matrix + because-clause.

C5

The reserve will activate once demand exceeds capacity for two consecutive days.

Nested time condition: matrix + when/once + clause containing condition.

C6

The data were aggregated so that trends could be compared without exposing individuals.

Purpose with constraint: matrix + so that + clause + without + -ing.

Open reconstruction

Compare the form first, then read the explanation and name the rule in your own words.

D1

Although the measure worked

Layered concession and cause requires “Although the measure worked” in this model. although-clause + matrix + because-clause.

D2

once demand exceeds capacity

Nested time condition requires “once demand exceeds capacity” in this model. matrix + when/once + clause containing condition.

D3

so that trends could be compared

Purpose with constraint requires “so that trends could be compared” in this model. matrix + so that + clause + without + -ing.

D4

although-clause + matrix + because-clause

Layered concession and cause is built as although-clause + matrix + because-clause.

D5

matrix + when/once + clause containing condition

Nested time condition is built as matrix + when/once + clause containing condition.

Controlled transformation

Compare the form first, then read the explanation and name the rule in your own words.

E1

Although the measure worked initially, it was withdrawn because costs rose.

although-clause + matrix + because-clause. The rewrite preserves the core message while adding the intended layered concession and cause effect.

E2

The reserve will activate once demand exceeds capacity for two consecutive days.

matrix + when/once + clause containing condition. The rewrite preserves the core message while adding the intended nested time condition effect.

E3

The data were aggregated so that trends could be compared without exposing individuals.

matrix + so that + clause + without + -ing. The rewrite preserves the core message while adding the intended purpose with constraint effect.

E4

Although the measure worked initially, it was withdrawn because costs rose.

although-clause + matrix + because-clause. The rewrite preserves the core message while adding the intended layered concession and cause effect.

Communicative production

Compare the form first, then read the explanation and name the rule in your own words.

F1

Although the measure worked initially, it was withdrawn because costs rose. The surrounding context would then state the same situation in neutral order or with a less marked commitment.

A strong response uses although-clause + matrix + because-clause accurately and makes the communicative purpose visible in context.

F2

The reserve will activate once demand exceeds capacity for two consecutive days. The surrounding context would then state the same situation in neutral order or with a less marked commitment.

A strong response uses matrix + when/once + clause containing condition accurately and makes the communicative purpose visible in context.

F3

The data were aggregated so that trends could be compared without exposing individuals. The surrounding context would then state the same situation in neutral order or with a less marked commitment.

A strong response uses matrix + so that + clause + without + -ing accurately and makes the communicative purpose visible in context.

07 · FEEDBACK

Diagnose the pattern, not only the score

Use this page to decide what to revisit in the complete guide.
