INGLÉS · NIVEL B2 · CUADERNO IMPRIMIBLE

Mixed conditionals en inglés B2

Los mixed conditionals no mezclan tiempos al azar: conectan una causa y una consecuencia que viven en momentos distintos.

META DE LA LECCIÓN

Relacionar causa y resultado cuando pertenecen a tiempos diferentes.

MODELO

If I had taken that job, I would live in London now.

Al terminar podrás

1. Distinguir causa pasada con resultado presente.
2. Formar condiciones presentes con resultado pasado.
3. Elegir la combinación según la línea temporal real.

CÓMO ESTUDIAR

Lee la explicación, reconstruye la infografía sin mirar, resuelve la práctica y corrige al final. Vuelve al mapa visual para justificar cada decisión.

01 · COMPRENDER

La idea esencial

Combina una condición de un momento con un resultado de otro: pasado que explica el presente o estado presente que habría cambiado el pasado.

Pasado que cambia el presente

Esta combinación imagina una decisión pasada diferente y observa su resultado actual. If I had studied medicine, I would be a doctor now significa que no estudié medicina y hoy no soy médico.

Estado presente que explica el pasado

Aquí una característica o situación actual habría producido otro resultado anterior. If I were more organised, I would not have missed the deadline conecta una condición presente general con un error pasado.

Realidad	Hipótesis
I am not organised; I missed it.	If I were organised, I would not have missed it.
He is shy; he did not speak.	If he were less shy, he would have spoken.

La pregunta que evita errores

No memorices una etiqueta. Pregunta cuándo existe la condición y cuándo ocurre el resultado. Esa relación temporal determina la forma verbal.

Las expresiones now, today, then, yesterday y last year ayudan, pero el significado puede bastar aunque no aparezcan.

02 · MAPA VISUAL

La regla de una sola mirada

FÓRMULA

if + past perfect -> would + base verb | if + past simple -> would have + participle

Decide en este orden

1. Ubica primero la causa: pasado o estado presente.
2. Ubica después la consecuencia: presente o pasado.
3. Usa past perfect para la condición pasada irreal.
4. Usa would have + participle para el resultado pasado irreal.

Relación	If-clause	Resultado
pasado -> presente	If + had + participle	would + base verb + now
presente -> pasado	If + past simple	would have + participle
pasado -> pasado	If + past perfect	would have + participle

Errores frecuentes

× Copiar la misma forma en ambas partes sin mirar el tiempo.

× Usar would dentro de la if-clause.

× Olvidar have en un resultado pasado.
