INGLÉS · NIVEL B2 · CUADERNO IMPRIMIBLE

Participle clauses en inglés B2

Las participle clauses condensan información sin perder la relación lógica, pero exigen que el sujeto implícito coincida con el de la oración principal.

META DE LA LECCIÓN

Condensar dos ideas relacionadas con un sujeto compartido.

MODELO

Having finished the report, Maya sent it to the client.

Al terminar podrás

1. Reducir cláusulas activas y pasivas.
2. Marcar anterioridad con having + participle.
3. Evitar dangling participles con sujeto ambiguo.

01 · COMPRENDER

La idea esencial

Reduce cláusulas de tiempo, causa o resultado con -ing, participio pasado o having + participle cuando el sujeto es claro.

El control del sujeto

En Walking into the room, I noticed the silence, quien entra y quien nota es I. Si escribes Walking into the room, the silence surprised me, parece que the silence caminó: es un dangling participle.

Activa, pasiva y anterior

La forma -ing conserva un significado activo. El participio pasado aporta significado pasivo. Having + participle muestra que la primera acción terminó antes de la principal.

Completa	Reducida
Because she knew the answer, she replied.	Knowing the answer, she replied.
Because it was damaged, the device failed.	Damaged in transit, the device failed.
After he had signed, he left.	Having signed, he left.

Cuándo no reducir

No reduzcas si cambia el sujeto o si el lector puede interpretar varias relaciones. La concisión solo mejora el texto cuando también conserva claridad.

La regla de una sola mirada

FÓRMULA

-ing clause | past-participle clause | having + past participle

Decide en este orden

1. Comprueba que ambas acciones comparten sujeto.
2. Usa -ing para relación activa o simultánea.
3. Usa participio pasado para sentido pasivo.
4. Usa having + participio para anterioridad clara.

Forma	Relación	Ejemplo
-ing	activa/simultánea	Walking home, I called Ana.
past participle	pasiva	Built in 1890, the house needs repairs.
having + participle	anterior	Having checked the data, we published it.

Errores frecuentes

× Dejar un sujeto implícito que no coincide con la principal.

× Usar -ing cuando la idea es pasiva.

× Reducir una cláusula si la relación lógica queda ambigua.
