INGLÉS · NIVEL C1 · CUADERNO IMPRIMIBLE

Cleft sentences en inglés C1

Las cleft sentences no añaden información nueva: reorganizan la oración para indicar exactamente qué dato debe recibir el énfasis.

META DE LA LECCIÓN

Controlar qué información presenta el hablante como contraste o foco.

MODELO

Maya found the error. -> It was Maya who found the error.

Al terminar podrás

1. Construir it-clefts y what-clefts.
2. Mover el foco entre persona, objeto, tiempo y lugar.
3. Evitar concordancia y referencias ambiguas.

CÓMO ESTUDIAR

Lee la explicación, reconstruye la infografía sin mirar, resuelve la práctica y corrige al final. Vuelve al mapa visual para justificar cada decisión.

01 · COMPRENDER

La idea esencial

Divide una idea en dos cláusulas para controlar el foco: It was Maya who found the error; What we need is more time.

It-clefts para corregir o contrastar

It was Thursday that we met puede corregir la idea de que fue otro día. El foco aparece entre be y la cláusula relativa.

What-clefts para presentar necesidades y resultados

What the team needs is clearer guidance prepara al lector para la información nueva después de be. Esta forma es común en explicaciones, reuniones y ensayos.

Neutra	Cleft
We need a decision.	What we need is a decision.
Ana solved the issue.	It was Ana who solved the issue.

Foco y naturalidad

Una cleft funciona cuando responde a una pregunta implícita: quién, qué, cuándo, dónde o cuál es la necesidad. Sin ese contraste puede sonar pesada.

02 · MAPA VISUAL

La regla de una sola mirada

FÓRMULA

it + be + focus + relative clause | what-clause + be + focus

Decide en este orden

1. Elige el elemento que quieres enfatizar.
2. Usa it-cleft para contraste específico.
3. Usa what-cleft para destacar una acción o necesidad.
4. Comprueba la concordancia con el foco.

Tipo	Estructura	Ejemplo
it-cleft	It + be + foco + relative	It was Ana who called.
what-cleft	What + clause + be + foco	What I need is a break.
all-cleft	All + clause + be + foco	All we need is time.

Errores frecuentes

× Repetir un pronombre dentro de la relativa.

× Usar what cuando el foco ya es una persona específica.

× Forzar una cleft cuando no existe contraste real.
