ENGLISH C2 · ADVANCED GRAMMAR

# Register transformation

Changing register is not replacing everyday words with “difficult” synonyms. It changes what is explicit, who appears as the agent and how the writer manages the relationship with the audience.

THE CENTRAL IDEA

Rephrase a message without altering its essential propositional content.

Reframe one proposition for conversational, professional and academic settings by adjusting grammar, agency, density and politeness.

MODEL

Send it today. -> We would appreciate receipt by close of business.

meaning + audience + purpose -> register choices

6 GUIDED STAGES · 28 LEARNING DECISIONS

This complete guide combines explanation, visual reasoning, practice and feedback. Separate exercise and answer-key editions are also available from the lesson page.

## LEARNING OUTCOMES

OUTCOME 1

01

Adapt grammar and tone to audience, purpose and channel.

OUTCOME 2

02

Control agency, directness and nominal density.

OUTCOME 3

03

Preserve the essential meaning while changing register.

# Build meaning before form

Reframe one proposition for conversational, professional and academic settings by adjusting grammar, agency, density and politeness.

# Register is a grammatical decision

Could you send the file?, Please send the file and Submission is required encode different relationships, agency and degrees of directness. They are not interchangeable synonyms.

Register emerges from a cluster of choices: clause type, modal, pronouns, verb type, information density and stance.

# Visible or hidden agency

We recommend testing keeps the recommender visible. It is recommended that the system be tested creates institutional distance. The second is not automatically better; its value depends on whether responsibility matters.

When accountability is central, a direct active clause may be the most appropriate formal choice.

| Purpose | Likely choice |
|---|---|
| show responsibility | explicit agent |
| state a general procedure | passive/impersonal |
| request action | clear active verb |

# Politeness without semantic drift

Please reply by Friday softens You must reply by Friday while preserving the deadline. You might reply sometime changes both obligation and timing, so it is not an equivalent register transformation.

Track modality, deadlines, conditions and degree of certainty before and after every rewrite.

# Transform without distorting

The best version is appropriate and accurate, not merely longer. Dense nominal phrases can sound bureaucratic; slang can sound dismissive; excessive hedging can conceal the requested action.

Test the sentence against the real reader: do they know what happened, who must act and by when?

# Reason through the pattern

The ladder moves one stable meaning through conversation, professional communication and academic prose. At every step, a semantic lock protects obligation, timing and certainty.

| 01 | 02 | 03 | 04 |
| --- | --- | --- | --- |
| meaning | audience | purpose | register choices |

## DECIDE IN THIS ORDER

STEP 1

### Decision 1

Fix the meaning, obligation, certainty and deadline that must not change.

STEP 2

### Decision 2

Identify the relationship, audience and channel.

STEP 3

### Decision 3

Adjust directness, agency, vocabulary and density.

STEP 4

### Decision 4

Check that politeness or formality has not created ambiguity.

# Compare forms and meanings

Use the table to justify each structural choice.

| Register | Typical features | Example |
|---|---|---|
| conversational | contractions, phrasal verbs | Can you look into it? |
| professional | clear politeness, precision | Could you investigate this? |
| academic/formal | calibrated impersonality, density | Further investigation is required. |

## EXAMPLES AT A GLANCE

| | |
|---|---|
| Can you look into it? | conversational |
| Could you investigate this? | professional |
| Further investigation is required. | formal/impersonal |

## COMMON ERRORS

EDIT THIS

### Avoid this pattern

Assuming formal always means passive.

EDIT THIS

### Avoid this pattern

Using nominalisations that hide responsibility.

EDIT THIS

### Avoid this pattern

Softening an instruction until its obligation is no longer clear.

# Recognition in context

Choose the form that completes each situation naturally.

A1 · CONTEXT 1

Choose the clearest professional request.

OPTIONS Could you send the revised file by 3 p.m.? · Gimme the file later. · The file situation should perhaps occur. · You'd better do it.

A2 · CONTEXT 2

Choose the suitable academic version of "We found out the method didn't work."

OPTIONS The findings indicated that the method was ineffective. · We kinda found it was bad. · The method totally bombed. · It didn't work, you know.

A3 · CONTEXT 3

Which version keeps the agent visible?

OPTIONS The committee rejected the proposal. · The proposal was rejected. · A rejection occurred. · It got rejected.

A4 · CONTEXT 4

Which polite version preserves the obligation?

OPTIONS Please submit the form by Friday. · You might submit it sometime. · Submission could perhaps happen. · No worries if you skip it.

A5 · CONTEXT 5

Choose the natural conversational version of "Further investigation is required."

OPTIONS We need to look into it more. · An investigation requirement is instantiated. · Further inquiry must be operationalised. · It is hereby investigated.

A6 · CONTEXT 6

Choose the neutral, concise version.

OPTIONS The update caused several errors. · The implementation of the update was causative of errors. · The update totally messed things up. · Errors were, like, happening.

STAGE CHECK

## Pause before continuing
